OBJECTIVE

Master of Software Engineering student with hands-on development experience across full-stack web applications, plus a background in technical support and client-facing roles. Seeking a Software Developer internship building reliable, real-world applications.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript, TypeScript, React.js, Tailwind CSS

Backend & Frameworks: Python (FastAPI, Django, Flask), Node.js(Express.js), JWT Authentication, API development & integration (REST)

Databases: PostgreSQL, SQLite, MySQL, MongoDB; Mongoose(ODM)

Cloud & DevOps: AWS (IAM, EC2, S3, RDS, CodePipeline, CodeBuild, CodeDeploy), Docker, Docker Compose, Kubernetes, OpenShift, CI/CD workflows, Git/GitHub/GitLab

AI Tooling: Claude Code and agentic coding assistants in daily workflow; critical review of AI-generated code; LLM API integration

Core Concepts: Data Structures & Algorithms, Dynamic Programming, Object-Oriented Programming, system design, microservices architecture, serverless computing (AWS Lambda)

Practices: Agile methodologies, sprint planning, peer code review, API and functional testing, debugging and root-cause analysis, technical documentation

SOFTWARE ENGINEERING EXPERIENCE

Junior Software Engineer | Finex Lifecare

Jun 2025 – Dec 2025

- Built and shipped medication tracking features for a healthcare web application used by clinical staff.
- Refactored backend API endpoints tied to the medication module, reducing recurring bugs.
- Shipped weekly releases through sprint planning and peer code reviews.
- Used Docker and CI/CD pipelines to automate builds, testing, and deployment.

Software Engineering Intern | Finex Lifecare

Jan 2025 – Jun 2025

- Built frontend features and wired them up to backend APIs in a healthcare web application.
- Implemented CRUD operations and API testing, improving reliability for everyday internal use.
- Followed version control and code review practices in Docker-based dev/prod environments.
- Partnered with developers and product leads in structured Agile workflows.

ADDITIONAL PROFESSIONAL EXPERIENCE

Team Member | Woolworths New Zealand

May 2026 – Present

- Managed stock replenishment and inventory workflows, ensuring accurate product availability; balanced part-time work alongside postgraduate study.

Sales & Marketing Intern | Master-O (InspireOne Technologies)

June 2024 – Sep 2024

- Generated high-quality leads and improved SEO performance while supporting outreach and marketing campaigns.

Tech Analyst | eClerx Services Limited

Feb 2022 – Mar 2023

- Analysed client data and troubleshooted technical issues directly with clients; recognised as top performer during training.

PROJECTS

- PlayToLearn** — Quiz-based microlearning game platform. Built to address a real pattern: people don't stop learning because the content is bad, they stop because nothing pulls them back the next day. Designed two playable quiz games with a question-and-answer core to make repetition feel like play rather than a chore.
- Weather Wear Plus** — Outfit recommendation app powered by live weather data; built using React.js and FastAPI, with an AI assistant suggesting what to wear.
- Blog Management System** — Blogging platform backend with secure authentication and password recovery; built using FastAPI and SQLite, with image upload support.
- Full Stack Task Manager** — Task management web app with secure JWT login; built using React.js and FastAPI, with full CRUD and pagination.

CERTIFICATIONS

- Introduction to Containers w/ Docker, Kubernetes & OpenShift (IBM)** — Docker image builds, Kubernetes objects & kubectl, container orchestration, intro to OpenShift & Istio.
- AWS Core Services and Cloud Foundations (Packt)** — IAM, EC2, S3, and RDS fundamentals for cloud infrastructure.
- Hands-on with AWS: Software Development Practices (AWS)** — CI/CD with AWS CodePipeline, CodeBuild, and CodeDeploy; Git-based source control and unit testing.

EDUCATION

Master of Software Engineering | Yoobee College of Creative Innovation, Auckland

Apr 2026 – Present

Bachelor of Computer Applications (BCA) | Panjab University, India

Jun 2020 – Jun 2023
